2. Men who re-engage between the 1st April and the 30th June will receive compensation, from the 1st April to the date of re-engagement, for the articles of clothing in lieu of which they would have received compensation had they been discharged on the day on which they re-engage.

3. Men who re-engage between the 1st July and the 31st March will receive compensation, from the date of re-engagement to the 31st March, for such articles of clothing, except great coats, as they would have been allowed by regulation to take away with them, had they been discharged on the day on which they re-engage.

The expense will be chargeable to the items for "Repairs of Barrack Damages" in the engineer estimates.

STORES.

58.—Freight from Foreign Stations.

1. Much unnecessary inconvenience and correspondence having arisen in consequence of the imperfect information afforded by officers engaging freight for stores from Foreign Stations to this country (in the absence of a naval transport officer), Secretary Sir John Pakington desires that for the future the following directions may be strictly adhered to:—

2. Officers engaging freight will be governed by Chapters I. to V. of the regulations for Her Majesty's Transport Service, so far as they may be applicable.

3. When the stores do not exceed 50 tons, or where the value of the freight will not exceed £100, the only document necessary will be the tender (Form Appendix No. II.), page 72, Transport Regulations.

4. When the quantity of stores or the amount of the freight exceeds the above limit, the documents required will be the Tender and Charter Party (Forms Appendix No. I. and No. III.), pages 71 and 73 Transport Regulations.

5. A letter of advice of the engagement of freight will be transmitted by the first mail to the Under Secretary of State for War for all military stores shipped, and a duplicate will be sent at the same time to the Director of Transports, Admiralty, Somerset House. A letter of advice will be similarly transmitted to the director of transports in regard to all engagements of freight for naval stores.

6. These letters of advice will specify the following particulars, viz.—

I. The name of the ship.
II. The names and addresses, in this country, of the owners or brokers of the ship.

GENERAL ORDERS,

BY HIS ROYAL HIGHNESS

THE FIELD MARSHAL COMMANDING IN CHIEF.

NEW SERIES. AUGUST, 1867.

No. 59.—Harvesting.

(*Home Stations only.*)

Issued specially 10th *August*, 1867.

There will be no objection on the part of His Royal Highness the Field Marshal Commanding in Chief to commanding officers permitting a certain number of men to assist in the harvest, on being applied to for such assistance, provided that the employment of the population is not thereby interfered with.

No. 60.—Staff College.

With reference to the last paragraph of Section V. of the Staff College Regulations, published with the General Order, No. 886, dated 23rd May, 1866, it is hereby notified to officers of the Army that the following campaigns will form the subject of examination in military history and geography at the examination for admission to the Staff College to be held in July, 1868.

I. Campaign of 1813 in Germany, with the battle of Dresden in detail.

II. Campaign of 1814 in Champagne, with the operations against Blucher, 7th to 16th February, in detail.

N.B.—Candidates will be expected to have an accurate knowledge of the geography of the seat of War in both campaigns, with reference more especially to military operations, and to make a rough sketch of any portion of it that may be required.

Officers will receive, on application to the Secretary to the Council of Military Education, a copy of the synopsis of the studies pursued at the Staff College.

No. 61.—Ammunition.

The Field Marshal Commanding in Chief desires that all central fire cartridges for Snider's breech-loading rifles which miss fire, cut or fail from any cause, may be preserved by regiments and forwarded to the Principal Superintendent of Stores at Woolwich for the Superintendent of the Royal Laboratory, accompanied invariably by a description of the distinguishing mark of the ammunition and that of the arms with which any failures may occur.

No. 62.—Stores on board Ship. (*Quarter Master General.*)

Stores in H.M. Ships of War and Commissioned Troop Ships.

I. All bedding and mess utensils issued for the use of troops embarked on board any of Her Majesty's ships of war or commissioned troop ships are to be received and accounted for on the same principle as such articles would be if furnished to troops in barracks. The articles required are to be drawn from the stores of the ship by the Quarter Master of the troops, or other person acting on his behalf, and by him returned to the officer of the ship from whom they were received at the termination of the voyage, with a certificate from the commanding officer of the troops, showing the manner in which the articles not returned have been disposed of, and whether any portion is chargeable to the troops.

II. Any loss or damage which cannot be satisfactorily accounted for will be charged against the troops on disembarkation; and if so chargeable against a regiment—embarked collectively or by detachments—the paymaster of the ship is authorized to obtain from the officer in command of the troops payment for the same. When the troops on board consist of detachments of several corps, the military officer in command

GEN. ORDERS—*continued.*

must make each detachment responsible for the articles issued to it; and if, when a loss has occurred, he is unable to fix it upon any individual soldier, he will charge it to the detachment concerned, paying the amount at once, if possible, out of any balance in his hands due to such detachment; otherwise he will furnish an account of the charges to the ship's paymaster, and transmit a duplicate thereof to the officer commanding the regiment, who will cause the amount to be stopped from the soldiers and credited to the public in the first regimental account rendered after the detachment joins its corps.

III. In the event of loss or damage arising from stress of weather, fire or other accident, the statement of the circumstances under which it occurred must be supported by an extract from the ship's log or other satisfactory certificate before the troops can be relieved of the charge.

IV. A Board composed of three commissioned officers should assemble in time to prevent the ship being delayed on arrival at its destination, in order to record the loss or damage of any articles which are chargeable to the public, instead of to the troops, under the circumstances above stated. A copy of the proceedings of the Board is to be given to the paymaster or other officer of the ship.

V. If the captain of the ship should make any objection to the number of the articles it is proposed to charge against the public, the original report of the Board is to be referred by the officer commanding the troops through the general officer commanding on the station to the Quartermaster-General, for the information of the Commander in Chief, who will, if necessary, communicate with the Lords Commissioners of the Admiralty upon the subject.

Stores in Hired Ships.

VI. Articles supplied from naval stores, such as bedding, mess utensils, &c., for the use of troops in ships hired by the Admiralty, are to be in charge of the master of the ship, who is to issue them, as demanded by the commanding officer, to the quartermaster of the troops or other person acting in that capacity.

VII. The medical comforts are to be drawn from the master of the ship on the requisition of the medical officer, who is required to keep an account of their receipt and expenditure, and on arrival at his destination to transmit such account to the Director General of the Army Medical Department.

VIII. Articles remaining on board at the close of the voyage are to be returned to the master, accompanied by a list of deficiencies, signed by the military commanding officer, and stating by what corps the stores were lost or destroyed, under what circumstances any deficiencies occurred, and whether the troops are chargeable with their value.

IX. Payment for articles so chargeable is in no case to be made to the master of the ship, but commanding officers are to take care that the amount is recovered, when practicable, from the troops on disembarkation and accounted for on the spot, under orders from the disembarking staff officer.

X. In the case of hired ships from India, the medicine chest and surgical instruments, the arms and ammunition, the waterproof coats and caps, the library chest and box of games, as also the hammocks, beds, pillows, blankets, rugs, oats, and any other Government stores which may be placed on board for the use of the troops, are to be handed over to the master of the ship and a receipt for them obtained.

War Department Stores.

XI. When War Department property, such as purveyor's hospital stores, musketry articles, waterproof clothing, games, books, &c., is placed on board ships hired by the Admiralty, for the use of the troops during the voyage, the military commanding officer will be held responsible that all such articles are returned into the proper War Department store at the termination of the voyage. If, however, invalids are on board a hired ship arriving at Spithead, from any but an Indian port, purveyor's hospital stores are to be sent with them to Netley. Medical comforts and bedding will, in all cases, be left in charge of the master of the ship.

XII. The commanding officer will be careful to obtain from the departmental officer furnishing the stores a duplicate list of the articles received, which list he will retain for information during the voyage, and hand over to the disembarking officer on arrival. All deficiencies are to be duly accounted for, and the amount chargeable to the troops is to be recovered, when practicable, at the time of disembarkation, in order to avoid delay in the adjustment of accounts.

GEN. ORDERS—*continued.*

XIII. When the commanding officer considers that there are reasonable grounds for relieving the troops of any charges, it will be his duty to assemble a Board of three commissioned officers to record evidence respecting the loss or damage, and to express an opinion whether the charges should be borne by the public or by the troops. The report of the Board is to be forwarded through the general officer commanding at the port of disembarkation. If a Board of three officers cannot be assembled, two officers will suffice; and when two, even, are not available, the commanding officer will himself record the circumstances under which the deficiencies occurred.

XIV. Rugs issued by the barrack department for the use of detachments proceeding coastwise from one port of the United Kingdom to another by night, are in like manner to be accounted for at the end of the voyage.

No. 63.—Records.

I. It having been brought to notice that misapprehension exists as to the method of calculating the service towards limited engagement of soldiers, who have been absent without leave (otherwise than by desertion), imprisoned by summary award of their commanding officers, or in confinement awaiting trial, it is directed that in all instances where a deduction has been made in the records for the above causes, the same be recredited to the men, such deduction being repugnant to the provisions of the 8th section of the Army Service Act of 1847.

II. Officers commanding regiments, corps, and depôt battalions, will take steps to have the necessary corrections made in the records under the supervision of a regimental board, which will however not alter the entries as they stand, but add the period to be credited to the men, on the face of the record after the last entry, verifying the same with their signature.

III. It is to be understood, however, that all men enlisting, re-enlisting or re-engaging under the Army Enlistment Act of 1867, will be subject to the deduction of service laid down in the 6th section of that statute.

No. 64.—Ammunition.

All blank ammunition for the converted Snider breech-loading rifles which is not marked "for Snider Rifles II,"—which alone is suited for the present rifles,—is to be at once returned into store, the troops retaining in their possession the ammunition only which bears the distinctive mark II. after the word rifles.

No. 65.—Forms.

A new form of "Balance and Cash Account Sheet" has been approved of and may be adopted in all infantry regiments, at the option of commanding officers.

A specimen form is annexed for guidance.*

Supplies of blank forms may be obtained upon requisition to the War Office, at the rate of 9*d.* per quire.

No. 66.—Serjeant Master Tailors.

I. The practice of appointing men specially enlisted as Serjeant Master Tailors to regiments on foreign stations having been attended with inconvenience, will in future be discontinued, and the system of enlisting civilians for service in this capacity restricted to regiments at home.

II. Regiments having therefore master tailors specially enlisted will, on being put under orders for embarkation, apply for a soldier who has been trained at the Royal Army Clothing Factory, Pimlico, in exchange for the specially enlisted Serjeant Master Tailor, who will be transferred with his own consent, which should always be specified in the description return to accompany the application, to a regiment likely to remain at home for a lengthened period.

III. As this amendment of the regulations will involve the training of a larger number of soldiers than has hitherto been considered necessary, commanding officers in the United Kingdom will be pleased to forward from time to time through the General Officer commanding the district or station in which their regiments may be

serving, the names of any candidates who may come forward possessing the following qualifications:—

A good character, sober, steady and industrious; a tailor by trade, with inclination and capacity for the business; and an indisposition to get into debt. The man, moreover, should be unmarried; but this last condition will not be strictly insisted upon if the candidate is in other respects eligible.

IV. General officers having satisfied themselves that the candidate proposed for training possesses the above qualifications, will cause him to be examined by a board consisting of two or more serjeant master tailors, who will ascertain and report as to the likelihood of his becoming an efficient master tailor. [See Appendix 1.]

V. If the report is favourable, general officers will be pleased to forward, at once, to the Adjutant General the proceedings of the board, accompanied by a discription return, in which should be inserted whether the candidate is fit for service at home and abroad, and a copy of his company defaulter's sheet. [See Appendix 2.]

VI. In the cases of regiments stationed singly in out quarters, it will only be necessary to take the opinion of the master tailor of the corps as to the capabilities of the candidate.

VII. Men whilst under training at the Royal Army Clothing Factory, Pimlico, receive 1*s.* per diem, in addition to regimental pay, and are attached for quarters to a battalion of the Guards stationed in London.

VIII. Appended are forms of description return and proceedings of Board.

By command, W. PAULET, *Adj. Gen.*

Regulations respecting Foreign Orders.

1. No Subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a Warrant under Her Royal Sign Manual.

2. Such permission shall not be granted to any Subject of Her Majesty, unless the Foreign Order shall have been conferred in consequence of active and distinguished service before the Enemy, either at Sea or in the Field; or unless he shall have been actually and entirely employed, beyond Her Majesty's Dominions, in the Service of the Foreign Sovereign by whom the Order is conferred.

3. The intention of a Foreign Sovereign to confer upon a British Subject the Insignia of an Order, must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited at the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the Notification required by the preceding Clause must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the Notification must be made within two years after the date of such service.

5. After such Notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from naval or military Services before the Enemy, refer it to Her Majesty's Principal Secretary of State for the War Department previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Field Marshal Commanding in Chief, if the application relates to an Officer in the Army, or to the Lords of the Admiralty, if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the Warrant required by Clause 1 to be prepared for the Royal Sign Manual.

When such Warrant shall have been signed by the Queen, a Notification thereof shall be inserted in the Gazette, stating the service for which the Foreign Order has been conferred.

7. The Warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such Warrant as aforesaid shall contain a Clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding Clause shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by Her Majesty's predecessors, King George IV. and King William IV., on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of Clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Regulations respecting Foreign Medals.

1. Application for permission to accept and wear Medals which, not being the decoration o any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or in the Navy for military or for naval services, should be addressed, as the case may be, to the Field Marshal Commanding in Chief or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction; upon obtaining which, they may grant such permission without any other formality.

2. Permission to wear a Foreign Medal cannot be granted to a British Subject, unless such Medal is bestowed for military or naval services performed by the command or with the sanction of Her Majesty. But no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

Cl. 61.—Pay of Re-engaged Men.

When a discharged soldier, presenting himself at the head-quarters of a recruiting district, regiment, or depôt, for re-engagement, produces his parchment certificate of discharge, which does not give the necessary information to enable him to be at once re-engaged, in the terms of the Army Enlistment Act, 1867, he will be allowed detention money equal to pay, while reference is made to the man's former regiment or depôt.

Cl. 62.—Prices of Converted Arms.

Charges against the troops on account of losses of, or injuries to, the converted Snider arms will be governed by the prices shown in the annexed scale, so far as they apply to the *parts* requisite for the Snider arm; but when a *complete* arm is lost or destroyed the charge will not exceed the value of the corresponding muzzle-loading arm. Similarly the aggregate charge for repairs will not in any case exceed the cost of the muzzle-loading arm.

LIST OF PRICES OF RIFLES converted on Snider's system, and component parts, the prices of which are not given in the Tower Vocabulary printed in 1866.

Cl. 63.—Working Pay.

Payments of working pay to military working parties will, in future, be made on the spot, provided the duty on which the working parties have been employed shall have been duly authorized.

The accountant need not, therefore, submit working pay lists for sanction, but he will be held responsible that the rates and charges in such pay lists are in strict conformity with regulation.

Cl. 64.—Fuel.

The best coal only being now obtained under the new contracts in Great Britain and Ireland, the percentage laid down by Circular 767 for inland coal will not be issued by barrackmasters to the troops.

Cl. 65.—Boards of Survey on Fuel.

The instructions contained in War Office Circular 547, in so far as they relate to fuel are cancelled, and Boards of Survey need only be appointed in the event of the quality of the supplies being deemed unsatisfactory either upon or after delivery, as provided for in terms of contract.

Cl. 66.—Allowance for Collecting Boxer Cartridge Cases.

The cases of the Boxer Ball Cartridges for Snider Rifles being available, after firing, for the manufacture of blank ammunition, Secretary Sir John Pakington has decided upon granting an allowance at the rate of 1*s.* 1*d.* per thousand to the troops for collecting and preserving them.

Military store officers will, therefore, receive all such cases as may be returned to them perfect from the respective corps, taking care that the cases are clean and free from grit and gravel before issuing the allowance which will be paid on delivery of the cases into store.

The cases thus received will be forwarded, as opportunities offer, to the Principal Superintendent of Stores, Woolwich, for the Royal Laboratory.

CLOTHING.

Cl. 67.—Necessaries of Regiments going to India from a Colony.

Regiments proceeding from a British Colony to India will immediately upon embarkation send to the Chief Auditor of Army Accounts a final free kit and necessaries account up to the date of embarkation, from the previous 1st of April. They will also send at the same time a detailed statement of the value of the articles remaining in the Quarter Master's store for service in India, such value being computed at the rates laid down in the Army Circular fixing, for the time being, the prices of necessaries.

Such surplus necessaries as may not be of regulation pattern in India will be handed over to the Military Store Officer at the station, and the particulars thereof will be reported to the Director of Clothing at the time.

BARRACK DEPARTMENT.

Cl. 68.—Furniture for Offices.

The attention of the Secretary of State having been drawn to a case in which furniture was purchased for a commissariat office and the cost charged to the commissariat implement account, general officers commanding and others concerned are reminded that every article of furniture required for military offices should be demanded from the local barrackmaster, who should obtain the sanction of the Secretary of State before incurring any expenditure to comply with the demand; the amount expended being in every instance charged to Vote 4.

In any case abroad, where the service is too urgent to admit of the delay of a reference to England, the barrackmaster will apply for the covering authority of the Secretary of State as early as practicable through the general officer commanding, for any expenditure incurred for office furniture.

All office furniture not already on a barrackmaster's charge will be at once taken on his charge, and issued by him for use, as is done with barrack furniture.

ENGINEER DEPARTMENT.

Cl. 69.—Contracts.

The Secretary of State for War has approved of the principle of commanding Royal Engineers entering into special agreements with triennial contractors, for carrying out, for a fixed sum, any work estimated at less than £100, such sum not to exceed the amount of the detailed estimate as approved.

2. It will be optional for commanding Royal Engineers to propose to adopt this course or to pay for the work by measurement under existing regulations.

3. In the event of the Contractor's tender being in excess of the approved estimate, or of his being unwilling to resort to agreement, the mode hitherto adopted of paying for the work by measurement will be adhered to.

4. Bills for works carried out under this system will, in all cases, when put forward for payment, be accompanied by the detailed estimate as approved.

STORE DEPARTMENT.

Cl. 70.—Repairs of Breech-loading Arms.

1. In consequence of the introduction of the Snider converted breech-loading arms into the service, it has become necessary to supply certain special tools and materials for their repair, and to withdraw from regiments and depôts such of the tools and materials used with muzzle loading arms as are inapplicable to the converted arms.

2. With the exception of the articles mentioned in Appendix, List A, all the materials enumerated in the Royal Warrants of 23rd January, 1865, and 3rd February, 1866, are applicable to the Snider rifles, as are also the tools in the new pattern Field Forge, with the following exceptions:—

Clambs, breech, gun metal.
Drivers, screw, 4 inch.
Gouges, armourers' pipe.
Plates, screw, pattern 1853, large, three taps.
Wrenches, breech pin.

3. The special tools and materials which will be required by regiments and depôt battalions are detailed in Appendix, Lists B and C. List D contains a statement of parts of arms for repairs which are new or can be altered in form.

4. Officers commanding Infantry regiments and depôt battalions at home will have this year's supply issued direct to them from the Tower: abroad, the supply will be made by the respective military store officers upon the orders of the general officers commanding.

5. The articles detailed in Appendix, List A, the tools before specified, together with the ball drawers and worms of wrenches (with and without cramps), and muzzle stoppers, not being required for Snider breech-loading arms, will be delivered into store.

6. Military store officers will make provision in their annual demands for the supply of such materials as will be required by the regiments and depôt battalions in their respective commands, after the first year's supply has been made, and they will receive and forward to the Tower, as opportunities offer, the obsolete materials, tools and implements.

ARMY CIRCULARS—*continued.*

7. The Snider breech-loading rifles having been issued up to a recent period without the usual mark on the butt showing the year of issue, officers commanding regiments will cause this service to be performed by the armourer serjeants, who will be allowed one half-penny per arm for such work.

Cl. 71.—Boxer Cartridges.

His Royal Highness the Field Marshal Commanding in Chief having directed, by General Order No. 61, New Series, that all "Boxer Cartridges" which miss fire, cut or fail from any cause, shall be preserved by regiments and returned to the Royal Laboratory, Sir John Pakington desires that Military Store Officers will receive such "Boxer Cartridges" and transmit them to the Principal Superintendent of Stores, Royal Arsenal, "in transit" for the Royal Laboratory, reporting to this office each issue and the regiment or corps from which the cartridges are received.

Cl. 72.—Surveys—Home Stations.

Referring to paragraph 2 of Order No. 30, Army Circulars, 1867, it is to be understood that the instructions therein given are, as regards the mode of conducting the survey duties, explanatory of the detailed directions contained in the barrack regulations on surveys and transfers of stores, and that these detailed instructions are in no case to be overlooked.

It is especially necessary that the "Auctioneer's Account," "Claims for Working Pay" (with receipts), under Article 542 of the Royal Warrant, 3rd February, 1866, and the "Statement of Bedding Condemned," should accompany the "Minutes of Survey," and that the set of documents should be at once transmitted together (enclosed in a special report to the Under Secretary of State) by the board, or on their behalf by the member of the board acting as "Inspecting Officer." It is also necessary that the greatest care should be taken to ascertain the full weight of the old bedding prior to its being transferred to the contractor for the station, to whom all such articles, not retained for the public service, should be handed. Proper notice of a survey will always be given to the contractor, and in no case will the old bedding be removed until it is paid for.

MEMORANDUM.

Cl. 73.—Income Duty Exemption, 1867-8.

Accountants and paymasters are informed that the Commissioners of Income Duty only intend to send one letter, allowing the exemption in each case, either to the individual claimant or to the paymaster. This letter will bear a number, and the quotation of that number in the pay list or account will be sufficient voucher, without annexing the letter, for the issue of pay without the deduction of income duty, or for the refund of income duty already deducted.

(Signed) EDWARD LUGARD.

GENERAL ORDERS,

BY HIS ROYAL HIGHNESS

THE FIELD MARSHAL COMMANDING IN CHIEF.

NEW SERIES. SEPTEMBER, 1867.

CONTENTS.

No.
67. Necessaries (Tobacco, for Troops Embarking).
68. Arms (Cleaning of Snider Breech-loaders).
69. Extra Baggage in Coasting Steamers —Quarter Master General.
70. Baggage in H. M. Indian Troopships —Quarter Master General.
71. Overland Troop Service through Egypt—Quarter Master General.
72. Magic Lantern Slides for Lectures.
73. Recruiting (Standard for Gunners, R.A.)
74. Cancelling G. O. 50 (repair of Snider Breech-loaders).

67.—Necessaries.

Issued specially on 7th September, 1867.

I. It being understood that some of the supplies of tobacco purchased by commanding officers, from other sources than the government stores, for troops embarking for foreign service, were of very inferior quality, and as Article 91 of the Revised Royal Clothing Warrant of 1865 requires all necessaries, not procured from government, to be equal in all respects to authorized sealed patterns, the Field Marshal Commanding in Chief, in conjunction with the Secretary of State for War, thinks it advisable that sealed samples of tobacco should be deposited with every Depôt Battalion; and commanding officers are hereby enjoined, in every case in which tobacco is obtained otherwise than from the government contractor, to cause the same to be reported upon by a board of officers, who are to certify that it is equal to the sealed sample, before it is issued to the men.

II. Officers commanding regiments under orders for embarkation for foreign service are to apply to the War Office for sealed samples of tobacco with which to compare the supplies.

III. The following instructions are promulgated for the guidance of regimental boards, &c. in carrying out the inspection of the tobacco supplied for troops embarking for foreign service:—

1. The cake or plug of tobacco should be cut across the middle for the purpose of ascertaining the amount of stalk contained in it.

2. The plug should then be divided or split down in order to exhibit the quantity and quality of the leaf, as well as the quality of foreign matter and shorts mixed with it.

3. The board should further take into account the general appearance of the plug, its soundness of condition, size, weight and keeping qualities, and also its goodness in smoking and chewing.

68.—Arms.

I. The Ordnance Select Committee and the Superintendent of Royal Small Arms Factories being of opinion that the use of water is necessary to clean effectually the Snider breech-loading rifles after *blank* firing, the following mode of proceeding is to be adhered to:—

II. The rifle to be held muzzle downward, at a convenient angle, with the breech-block open, and water poured through the barrel; this will moisten the fouling and

GEN. ORDERS—*continued.*

enable it to be removed by a rag at the end of the cleaning rod. This method of pouring the water is not liable to wet the breech block or other parts of the breech arrangements of the rifle. The rag, which may be wetted, should then be placed over the muzzle and pressed into the bore with the head of the rammer—*care being taken that the rammer-head is equally covered all round.*

III. No attempt should be made by a soldier to drag his ramrod out of the bore by extreme force when it sticks fast, as the bore is almost sure to be injured by such a process. Where such cases occur, the armourer should be called upon to take proper means for removing the rammer.

69.—Extra Baggage in Coasting Steamers. (*Quarter Master General.*)

It having been brought to the notice of the Field Marshal Commanding in Chief that the instructions contained in the Circular Memorandum, No. 171, dated Quartermaster General's Office, Horse Guards, 20th September, 1866, have not been attended to in several recent instances, the circular in question is herewith re-published for general information and guidance, and His Royal Highness trusts that he will not again have occasion to remark on any neglect of these orders.

Circular Memorandum, Q. M. G.'s Office, Horse Guards, 20th Sept. 1866.

"As it frequently happens that after the conveyance of troops coastwise, the brokers of the steamers employed prefer claims upon the Admiralty for the quantity of baggage conveyed in excess of that allowed by the regulations (although it is specified by the tender that such excess shall be paid for by the troops themselves), His Royal Highness The Field Marshal Commanding in Chief directs that on all occasions on which extra baggage may be conveyed with troops coastwise, the commanding officer is to take such steps as will ensure the freight for such extra baggage being paid on the spot before or immediately after the troops leave the vessel."

"His Royal Highness also directs, that when extra baggage is about to be embarked, the local military authorities at the port of embarkation are to communicate to the naval officers the quantity, if known to them, of extra baggage intended to be shipped, in order that proper arrangements may be made for its stowage."

By command. J. HOPE GRANT, *Q. M. Gen.*

70.—H. M. Indian Troop Ships—Baggage. (*Quarter Master General.*)

(Specially issued by the Quarter Master General, on 5th September, 1867.)

The following regulations are to be observed in respect to the baggage of troops passing through Egypt:—

1. No baggage in excess of the regulated allowance either by cubic measurement or by weight is to be taken with the troops. Any extra quantity should be sent viâ the Cape of Good Hope under arrangements made by the troops.

2. It is necessary that all packages taken overland should be carefully packed, and be of moderate size, the utmost limit in this respect being a company's arm chest. It is desirable that the cases should be of strong material, and that the parts should be fastened together with screws, especially the lids, which ought never to depend solely on the locks for security, even though they be of the best description.

They should be fitted with iron handles, rope beckets or grommets worked into cleats of sufficient strength to bear the case without risk should the entire weight fall upon one handle or becket. These precautions are recommended, as the Arabs employed as porters at the railway depôts work in gangs, and handle all articles quickly and roughly, in spite of the utmost vigilance on the part of their overlookers, or such as could be exercised by a baggage guard, occasioning frequently considerable damage to property.

Any frangible articles should be packed with the greatest care, so as to admit of the packages being rolled over without breakage, and it is recommended that rope or leather straps for securing packages, portmanteaus, &c., should be avoided, as the Arab porters are to sure to cut them off and appropriate them.

3. All packages to be stowed in the ship's baggage rooms should, before being forwarded to the port of shipment, bear a large printed label showing the corps to which they belong, and marked "*Baggage Room.*"

A list should be kept by each corps of all packages, with their weight and measurement, forwarded for embarkation and actually put on board, from which a return in duplicate of the total number of packages and the corps to which they belong is to be prepared on

board under the approval of the officer in command of the troops, one to be handed to the principal transport officer or his deputy on arrival either at Alexandria or at Suez, and one to the deputy quartermaster general in Egypt or to his assistant.

This return should also show the total weight and measurement of the baggage on board, and should, when practicable, be signed by the quartermaster or other officer who has seen it weighed or measured in this country or in India.

Baggage stowed in the baggage room will not be accessible to the owners until the troops are disembarked in India or in the United Kingdom.

Baggage for use on the voyage should bear the names or initials of the owners in clear characters, and be labelled with the word "*Cabin*;" reasonable accommodation having been provided for such baggage in each officer's cabin, and further space in a baggage room for the use of married officers with their wives and families. A clear depth of sixteen inches has been allowed under the bedplaces in the cabins to admit a trunk of the regulation size for India, viz. thirty-six inches long, fifteen inches wide and fourteen inches deep, which size should not be exceeded in any package taken into the cabins.

A depth of sixteen inches has also been left under the lower tier of bunks in the compartments appropriated to the wives of the staff serjeants and soldiers for their articles in daily use, but the baggage belonging to those persons will require special attention and vigilance on the part of commanding officers, for should it not be carefully packed and directed, very great inconvenience, with discomfort to the families, may ensue, and serious complication and trouble arise with the railway authorities and officers of the Egyptian transit administration, who will be in charge of the baggage through from port to port in Egypt.

All cabin baggage landing or embarking in Egypt should go with the troops in the barges, and on no account should it be mixed up, even for a moment, with the baggage intended for the baggage room, as great delay would be caused in again dividing it.

The railway porters will take the baggage out of the barges and load it on the train, but a guard and small fatigue party under an officer will have to attend and superintend.

4. As medicine chests would be liable to great risk of injury in the transit through Egypt, a special dispensary for the use of the troops has been provided and fitted in each of her Majesty's Indian troop ships; all articles specially required for hospital purposes having been supplied. On this side of the Isthmus it will be placed in the charge of a serjeant, who will act as compounder of medicines, and on the other side it will be in the care of an apothecary or an assistant belonging to the Indian service. The requisite supply of medicines will be put on board by the Army Medical Department.

71.—India.—Overland Troop Service through Egypt.

(*Quarter Master General.*)

(Specially issued by the Quarter Master General, on the 6th September, 1867.)

1. The following instructions for troops passing through Egypt are issued for general information. Their object is that all persons should know their proper place and duty so as to avoid confusion or delay.

2. On the arrival of a troop ship at Alexandria or Suez, no person is to land unless under special authority till arrangements have been made by the proper officer for the disembarkation of the troops.

3. No person to be allowed to bathe, on account of the danger of sharks.

4. As soon as the troop ship is anchored an officer of the Quarter Master General's Department will come on board with a view to arrange for the troops landing.

5. The troops will generally land in three detachments. One will consist of heavy baggage guard, fatigue party and all married non-commissioned officers and men with their wives and children, under the second senior officer. The Quarter Master to accompany them, and a proportion of officers.

6. Two other detachments will consist of all the single men.

7. Field officers and staff, and ladies and children, to land in the tender. Other officers in the barges with the troops. Their light baggage to go with them. Officers' families in every case to accompany the officers in the railway carriage.

8. Band, drums and pioneers (single) to go with their companies.

GEN. ORDERS—*continued.*

9. Great coats should be carried ready to wear in the trains. Packs in the hands, not on the back.

10. Every man, woman and child over five years of age will be supplied before leaving the ship with a ration consisting of half a pound of cooked preserved meat and half a pound of biscuit, for consumption on the journey through Egypt, and before re-embarking they will each be provided with a cup of coffee. Each child under five years of age will be supplied with a quarter of a pound of fresh bread, and before re-embarking with hot milk or tea.

11. Officers and their families can obtain coffee before re-embarking on payment of 4*d.* a cup.

12. On landing, the detachments will proceed by separate trains. The baggage will be taken out of the barges and loaded on the trains by railway porters, but a baggage guard and small fatigue party must superintend and assist. The officer in charge must be watchful that the baggage is not damaged or allowed to go astray.

13. Married men to accompany their wives to and in the trains.

14. The officers must see that each carriage is filled, two children under fourteen years of age to count as one adult. In no case, however, should more than eight men be carried in a compartment.

15. Orders for the disposal of knapsacks and sea bags will be given on the spot by an officer of the Quarter Master General's Department.

16. The arms to be carried in the men's hands. The detachments of single men must fall in on landing, the officers to see the men with their great coats, arms and accoutrements into the carriages. The officers must be careful of their light baggage while the men are getting into the trains. A man from each company should remain in charge of it till the officer returns for it. The railway porters will put it into the trains.

17. A trumpeter or bugler to attend the senior officer in charge of each detachment, and to sit in the second class carriage next to him. The non-commissioned officers must see that no other bugle calls are sounded on the journey but those ordered by the senior officer.

18. The trains will generally leave about sunset and arrive about sunrise. They will stop five times, for fifteen minutes each time, at stations where there will be lights and where the men can get drinking water. No man to leave the carriage at any other stations. At three of the stations there are ladies' waiting rooms. On the trumpet or bugle sounding every man to take his place and officers to see that all are present.

19. The officers can obtain refreshments at [*Station to be notified by D. Q. M. G. in Egypt.*] Charge for supper 4*s.* each. As the men and women will carry their own provisions they are not to be allowed to enter the refreshment rooms, and non-commissioned officers should be placed at the doors to prevent their doing so. Before re-entering the carriages the men to fall in and the roll to be called.

20. If any sick are left in Egypt their great coats, packs, sea bag, if any, and complete kit, are to be left with them, but no arms or accoutrements, and a No. 1 Report is to be given to the officer of the Quarter Master General's Department. The medical officer to give a statement of their cases to the Surgeon of Suez Hospital.

21. The officer in command of the troops will be required to furnish in duplicate, on a form which has been prepared for the purpose, a "Transit Return," which he will hand to the officer of the Quarter Master General's Department in Egypt, for transmission to head quarters.

22. The officers must see that the utmost quiet and order is observed in landing, on entering the trains at the stopping places on the journey and on re-embarking.

23. A supply of 300 waterproof coats and 300 waterproof caps, each fitted with a strong becket for hanging up, will be kept on board for the use of the troops embarking in the two vessels to be employed between the United Kingdom and Alexandria. They will be placed in charge of the paymaster of the ship, and the value of any which may be lost, viz., 10*s.* a coat and 2*s.* 2*d.* each cap, is to be paid to the paymaster of the ship by the troops who may be on board before disembarkation.

N.B.—The foregoing instructions are posted in a conspicuous place on board each of H. M. Indian Troop Ships.

GEN. ORDERS—*continued.*

78.—Magic Lantern Slides for Schoolmasters' Lectures.

Arrangements having been made to provide a regular supply of diagrams and magic lantern slides, to illustrate the lectures which may be given during the ensuing winter to the troops at the several Stations in the United Kingdom named in the annexed list marked A, the Field Marshal Commanding in Chief desires attention to the following rules, which have been drawn up for regulating this service,—and he looks for the co-operation of Commanding Officers towards carrying out the same,—by ensuring the circulation of the slides and diagrams with that regularity upon which the success of the measure will mainly depend, and by the maintenance of order and decorum during the delivery of the lectures.

General Officers commanding at the several Foreign Stations specified in the list B will be pleased to give effect to these regulations within their respective commands, as far as local circumstances will permit, reporting from time to time their arrangements to this Department for the Field Marshal Commanding in Chief's information, and with a view to the same being communicated to the Council of Military Education.

1. The boxes and diagrams, the present Stations of which are shown in the annexed list A, should be placed in charge of the senior schoolmaster at the Station, or of some other schoolmaster detailed for that duty by the Officer commanding.

2. *No box or set of diagrams is to be kept at any Station longer than three weeks*, at the end of which, it is to be forwarded to the station next in order, as shown by list A.

3. As soon as a box has been forwarded, the form No. 1,* properly filled up, is to be sent to the address given at the bottom of the form.

4. The form No. 2,* is to be filled up and sent to the same address, on the receipt of a box of slides.

The *name* of the station, the *date* and the *full title* of the box, should be written on *each* form.†

5. When any of the slides are broken or injured, full particulars respecting the damage done are to be written on the margin of form 2.

6. The slides must be carefully placed in each box, in the order given in the detailed lists, and the spaces between the slides and the sides of the box filled up with the wool which has been supplied for this purpose. The slides must be properly packed, to prevent breakage in the transit. The chromatrope, in packing, should be placed at the *back* of the box.

7. Each box is to be carefully locked, wrapped up in strong paper, and addressed to the officer commanding at the station to which it is to be sent.—

Magic Lantern Slides,
Per Rail, &c.

8. The diagrams must be rolled carefully *on the piece of wood that is forwarded with each set*, packed in strong brown paper, and addressed as stated in No. 7. The word *Diagrams* is to be written instead of *Magic Lantern Slides.*

9. As some of the keys of the circulating boxes have been lost, a pass-key will in future be sent to each of the camps, garrisons, &c., to which the boxes of slides are transmitted. This pass-key is to be given over to the schoolmaster having charge of the magic lanterns, and he will, on removal to another station, deliver it over with the magic lanterns, boxes and diagrams he may have in his possession to such schoolmaster as may be detailed under the orders of the General or other Officer in command for that duty.

10. The circulation of the boxes and diagrams is to commence on the 16th of October, 1867, and to cease in March, 1868.

11. The boxes and diagrams should circulate *not later* than the periods stated below:—

I. October 16th, 1867.	V. January 16th, 1868.‡
II. November 7th, „	VI. February 6th, „
III. „ 28th, „	VII. March 3rd, „
IV. December 19th, „	VIII. „ 31st, „

* Forms 1, 2, 3, 4, and notices of lectures, will be supplied by the Council of Military Education, on application.

† Forms are occasionally received which do not contain *the name of the station.*

‡ *A month is allowed at Christmas.*

GEN. ORDERS—*continued.*

The boxes and diagrams are to *remain* at the stations to which they may be sent in March, in charge of the schoolmaster, until again required for circulation.

12. The text books which lecturers may require for the preparation of their lectures† cannot be supplied at the public expense. They should be provided by the Garrison Library Committees out of the library funds. As the boxes are transmitted to the stations in succession, each schoolmaster will find, on referring to list A, the subject on which he will have to lecture when the next set of diagrams or box of slides shall reach the station to which he is attached.

13. Application should be made as early as possible,‡ in conformity with War Office Circular No. 601, for such of the following articles as may be required, viz.:—Best Sperm Oil.—Wicks.—Tin Oil Filler.—Chimney Glasses.—Chamois Leather.—Camphor.—Black Oxide of Manganese, Chlorate of Potash (or Oxygen mixture).¶—Lime Ball Cylinders.—Metal Rods for Sheet.—Pair of Scissors.—Brown Paper for Packing.—Twine for Packing.—Sheet or Screen, when required.

And also for authority for the following payments:—

(1.) Carriage of the boxes of circulating magic lantern slides.
(2.) Postage of letters on the subject of their circulation.
(3.) Washing of the cloth screen or sheet.

14. All communications respecting the magic lanterns, lectures, &c., are to be addressed to— The Secretary,
Council of Military Education,
13, Great George Street,
(Magic Lanterns.) London, S.W.

15. Lecturers should bear in mind, that:

(1.) As a general rule, it is not advisable that the lecture should exceed an hour in delivery.

(2.) The lecture should be made as interesting as possible; statistical and dry details ought to be omitted, unless the lecturer considers it absolutely necessary that such should be mentioned, for the sake of illustration or comparison.

(3.) All explanations should be in clear and simple language; but, where technical and scientific terms are necessary, they should be explained and rendered as intelligible as possible, having reference to the class the lecturer is addressing.

(4.) *No slide should be allowed to remain in the lantern longer than ten minutes.*

(5.) *Before using the Lantern the lenses should be taken out and wiped: the lamp glass should be cleaned, and the silver reflector polished. The pictures will be dim and indistinct if the lenses, &c. are not perfectly clean.*

(6.) *The lime ball cylinders should be warmed before they are used.*

16. An account of the lectures delivered during the season, both at home and abroad, is to be transmitted in April, on the form provided for this purpose.

73.—Recruiting.

His Royal Highness the Field Marshal Commanding in Chief has approved of the lowest standard for gunners for the Royal Artillery, whether the recruits be men or growing lads, being fixed at 5 feet 6 inches.

74.—Arms.

With reference to General Order No. 50, Arms, which is hereby cancelled, attention is directed to Clause 69 of the forthcoming Army Circular to be issued from the War Office on the subject of the Snider Rifle.

By Command, W. PAULET, *Adj. Gen.*

† See detailed list of slides and diagrams. ‡ In duplicate, on Form, No. 4.
